Daniel McCuish, which left this port

Prince Edward Island, last night,
when her chain parted while she was
lying at anchor in the harbor, ac-
cording to a despatch received this

Catch Below Normal.

While Tracadie, N. S. fishermen
had a fairly good catch this season,
it was far below that of 1932, which
was about the best in history along
the coast. The total catch in period
ending June 30 was 1,180,973 pounds,
while in 1932 it was 1,497,000 pounds.

Unloading Fish.

Schooner M. C. A. arrived at Hali-
fax from the Magdalen Islands Thurs-
day and docked at Furness pier to
discharge a cargo of barreled fish.

after loading 425 hogsheads of salt for
various ports along the Nova Scotian
ports. She had dropped into Souris
to land salt, and during the night
according to the telegram, her chain
parted and she drifted ashore. Capt.
McCuish and his crew of seven men
are in no danger, it is said. He is
not due back here until next month,
when she is scheduled to bring near-
ly a half million pounds of salt cod
for the Gorton-Pew Fisheries, this
being her second trip this season,
with Capt. McCuish in command on
both voyages.

The Gorton by the way is the only
active sailing schooner in this port,
having no engine, and relying upon
her spread of canvas for power. She
was built just 28 years ago for the
late Capt. William H. Thomas, fa-
mous master mariner from this port.

Increased Fish Landings.

An increase in landings of fishery
products at Boston and Gloucester
and Portland, Me., for the first six
months of 1933 as compared with the
same period in 1932, is reported by
the Bureau of Fisheries.

Landings for the first half of this
year totaled 129,403,026 pounds, val-
ued at \$3,050,166, as compared with
121,745,133 pounds, valued at \$3,137,-
712, for the corresponding period last
year. Landings at the three New
England ports in June, 1933, amount-
ed to 13,288,105 pounds, valued at
\$485,951, compared with 19,469,016
pounds, valued at \$471,588, in June,
1932.

The increase in total landings for
the first half of the year was due
chiefly to large catches of cod, pol-
lock, cusk, haddock and flounders.
